DISABLED REFUGE EVC

Folknoll's vandal resistant, BS5839-9 compliant, disabled refuge EVC system offers cost effective solutions for shops, offices, hotels and other public spaces.

RA7700.40/45 PRO OUTSTATION

Disabled refuge outstations are installed in refuge areas to enable users to call for assistance in the event of an emergency.

The RA7700.40/45 pro-outstation is a bright green vandal resistant outstation with white photoluminescent and Braille annotation. Alternative finishes and annotation are available on request.

The unit is fitted with large vandal resistant call button and a call progress LED for user reassurance.

Speaker volume and microphone gain are independently adjustable to suit the operating environment, with a maximum output of 80 dB for noisy areas.

An optional induction loop kit available.

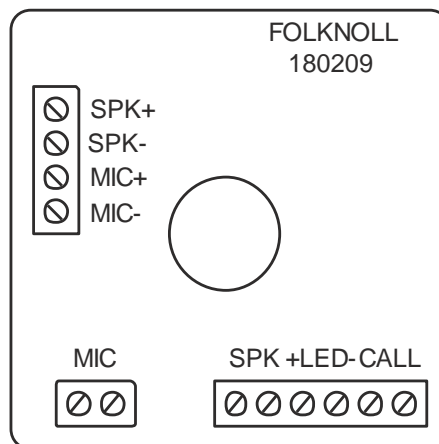

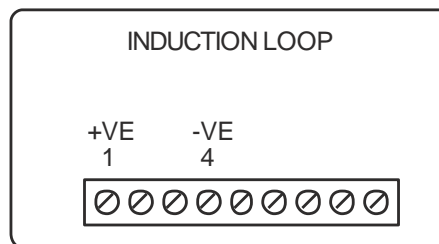

The unit is supplied with a surface or flush mount back box and anti-tamper fascia fixings.

This outstation is suitable for use with compact, combined and standard Folknoll Disabled Refuge EVC systems.
