DISABLED REFUGE EVC

Folknoll's vandal resistant, BS5839-9 compliant, disabled refuge EVC system offers cost effective solutions for shops, offices, hotels and other public spaces.

RA7700.50/55 FIRE TELEPHONE

Fire telephone outstations can be added to compact, standard or combined disabled refuge EVC systems to provide BS5839:9 compliant combined disabled refuge/fire telephone/toilet alarm systems. Saving control room space, simplifying installation and reducing cabling requirements.

The RA7700.50/55 Fire Telephone has a red handset for fire telephone operation and an integral speaker for hands free operation. The unit automatically switches from hands free to telephone operation when the door is opened.

The fire telephone outstation can be called from the disabled refuge master station allowing operators to attract attention and make announcements.

Speaker volume and microphone gain are independently adjustable to suit the operating environment, with a maximum output of 80 dB for noisy areas.

The unit is supplied in a bright red, mild steel, surface or flush mount enclosure with anti-tamper fixings.

This outstation is suitable for use with compact, combined and standard Folknoll Disabled Refuge EVC systems.

SPECIFICATIONS
