

FEATURES

- Suitable for use with standard system monitored PSUs or compact system master stations
- Provides disabled refuge EVC system backup power
- Provides disabled toilets alarm system backup power (if combined system)

DESCRIPTION

The Disabled Refuge EVC series is a range of easy to install, easy to configure and easy to operate BS5839-9 compliant equipment, designed to enable you and your clients to install BS5839-9 compliant vandal resistant disabled refuge EVC systems of up to 20 outstations.

The battery set is mounted in a compact master station or standard monitored PSU and provides 24 hours standby and 30 minutes active back up power for a 20 outstation standard Disabled Refuge EVC system.

Backup Battery

DESIGNED FOR LIFE

At Folknoll all equipment is designed by experience engineers for ease of installation and operation. In particular the design of all Folknoll Disabled Refuge EVC systems have taken into account the BS requirement to use larger fire resistant cabling, providing cable termination within enclosures, allowing room for larger glands and avoiding the need for additional junction boxes.

CUSTOM UNITS

Folknoll is a customer focused company. If you need special software features, custom made units or larger systems, then please contact Folknoll to discuss your requirements.
