

#### FEATURES

- 20mm LED beacon
- Can be flush or surface mounted in 35mm single gang back box (not supplied)

#### DESCRIPTION

The disabled toilets alarm series is a range of easy to install and easy to operate equipment, designed to enable you and your clients to install vandal resistant disabled toilets alarm systems.

Beacon units are local alarm annunciators.

One or more of these units is usually mounted on a wall at a strategic location outside the toilet to attract attention in the event of an alarm.

The unit is fitted with a red LED beacon which illuminates to indicate its associated alarm has been activated.

The standard unit is annotated in red with the words **ASSISTANCE REQUIRED**; alternative annotation is available on request.

The unit can be mounted in a single gang 35mm flush or surface mount back box (not supplied).
