

### FEATURES

- 20mm LED beacon
- Integral sounder
- Can be flush or surface mounted in 35mm single gang back box (not supplied)
- Available in brush finished stainless steel or white painted mild steel

### DESCRIPTION

The disabled toilets alarm series is a range of easy to install and easy to operate equipment, designed to enable you and your clients to install vandal resistant disabled toilets alarm systems.

Beacon sounder units combine the functions of beacon and sounder into a single unit.

These units are usually mounted on a wall outside of the toilet to attract attention in the event of an alarm.

These units are fitted with 20mm red LED beacons and integral sounders.

Alarm activation is indicated by illuminated beacons and activated sounders.

The standard unit is annotated in black with the words **ASSISTANCE REQUIRED**; alternative annotation is available on request.

These units can be mounted in single gang 35mm flush or surface mount back boxes (not supplied).
