DISABLED TOILET ALARMS

Folknoll's vandal resistant BS8300 compliant disabled toilet alarm system provides cost-effective solutions built from standard and bespoke units. Our toilet alarms can be combined with disabled refuge EVC, fire telephone and other systems. Ideal for shops, offices, hotels and other public spaces.

DT7520.40 BEACON SOUNDER

The DT7520.40 Beacon Sounder is usually installed outside a toilet to attract attention in the event of an alarm activation.

The unit is fitted with a large bright red LED beacon and an internal sounder which illuminate and sound to indicate the source of activated alarms. The LED beacon is dome shaped and can be seen from the side. Ideal for corridors etc.

The beacon and sounder can be linked together or controlled separately to suit your application.

This unit is suitable for use in stand-alone and remotely monitored systems. Custom and standard indicator panels, plan based graphical workstations and third party interfaces are available for monitoring systems.

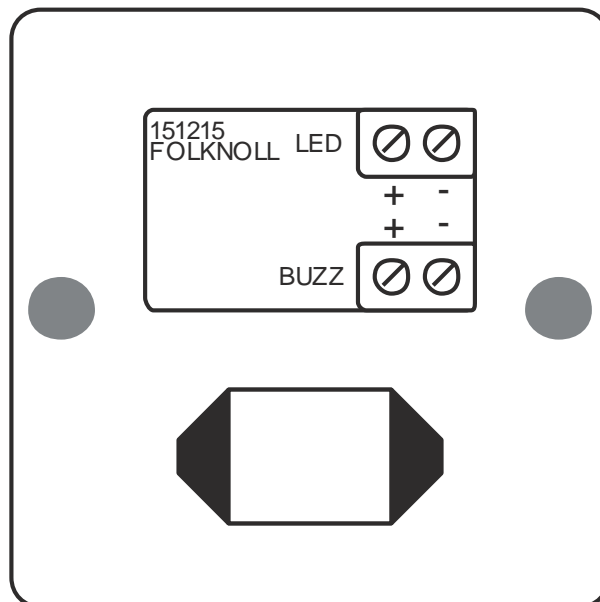

The standard unit is made from brush finished stainless steel and annotated in black with the words **ASSISTANCE REQUIRED**. Other finishes and alternative annotation are available on request.

This unit can be mounted in a flush or surface, 35 mm, single gang, back box (not supplied).
