FOR DISABLED TOILET SYSTEMS

FOLKNOLL DISABLED TOILET ALARM SYSTEMS

Our disabled toilet alarm series is a range of flexible, easy to install and operate equipment, enabling you to install cost effective vandal resistant disabled toilet alarm systems. Using this range you can construct anything from stand-alone toilet alarms to site-wide systems with remote fault monitoring, events logs, graphical workstations etc.

DT7520.28 BEACON SOUNDER HORIZONTAL STAINLESS

The DT7520.28 is a combined beacon and sounder in double gang unit with a vandal resistant stainless steel plate.

Beacon sounders units are usually mounted on a wall outside of the toilet to attract attention in the event of alarm activation.

This unit is suitable for use in stand-alone and remotely monitored systems, including our plan based graphical workstation systems for larger complexes. Third party interfaces are also available on request.

The standard unit is annotated in black with the words **ASSISTANCE REQUIRED**; alternative annotation is available on request.

The beacon sounder unit can be mounted in double gang 35 mm flush or surface back boxes (not supplied).

Folknoll equipment can be customised to suit your application. Alternative annotation and panel designs are available on request.
