FOR DISABLED TOILET ALARM

FOLKNOLL DISABLED TOILET ALARM SYSTEMS

Our disabled toilet alarm series is a range of flexible, easy to install and operate equipment, enabling you to install cost effective vandal resistant disabled toilet alarm systems. Using this range you can construct anything from stand-alone toilet alarms to site-wide systems with remote fault monitoring, events logs, graphical workstations etc.

DT7520.25 CALL POINT WHITE

One or more call points and ceiling pull cords are looped together in the toilet area providing alarm points that enable users to request assistance.

The DT7520.25 white steel call point is fitted with a vandal resistant call button and an internal anti-tamper switch.

To reduce the risk of accidental activation the unit is has an activation delay. The call button must be pressed and held for a minimum of 0.25 seconds before the alarm is raised.

This unit is fitted with an internal anti-tamper switch to trigger an alarm if the front plate is removed.

This call point unit can be mounted in a flush or surface 35 mm single gang back box.

The standard plate is painted white and annotated in red with the words **EMERGENCY CALL**. Alternative finishes and annotation are available on request.
