DISABLED TOILET ALARMS

Folknoll's vandal resistant BS8300 compliant disabled toilet alarm system provides cost-effective solutions built from standard and bespoke units. Our toilet alarms can be combined with disabled refuge EVC, fire telephone and other systems. Ideal for shops, offices, hotels and other public spaces.

DT7540.00L RESET LED STAINLESS

Reset units are installed inside the toilet to enable staff to reset activated alarms.

**FOLKNOLL DISABLED TOILETS ALARMS CANNOT BE RESET REMOTELY
ENSURING STAFF VISIT THE TOILET AREA IN RESPONSE TO AN ALARM.**

The DT7540.02L offers a stainless steel vandal resistant alarm reset unit with alarm activated LED.

The standard unit is fitted with a vandal resistant reset button. Keyed reset switches to prevent unauthorised resets can be supplied on request.

Reset buttons or keyed switches must be held for at least 0.25 seconds to reduce the risk of an accidental alarm reset.

The alarm activated LED illuminates to indicate alarm activation.

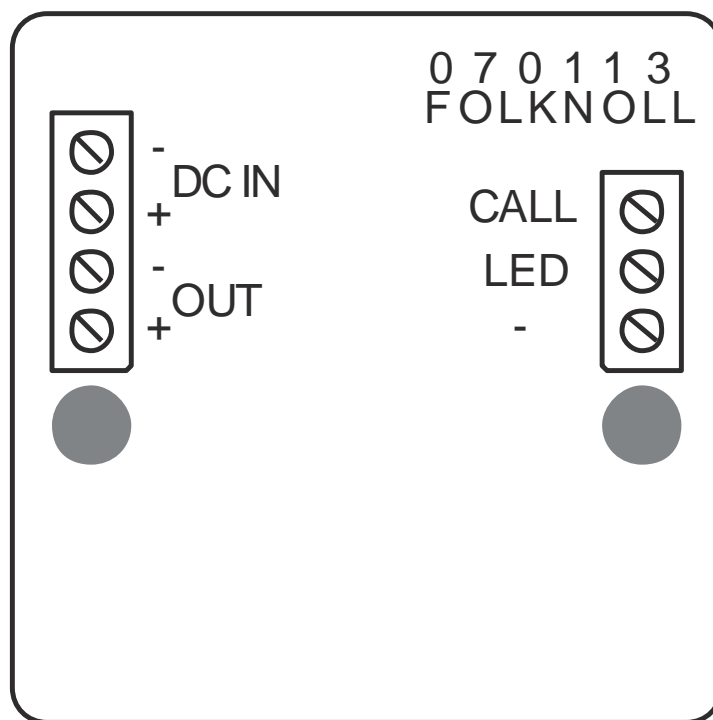

The standard faceplate is made from brush finished stainless steel annotated in black with the word **RESET**. Other finishes and alternative annotation are available on request.

The unit can be mounted in a flush or surface mount, 35 mm, single gang back box (not supplied).

SPECIFICATIONS

Faceplate: Brush finished stainless steel, with black annotation
Mounting: 35 mm single gang back box (not supplied)
Dimensions: Width: 86 mm, height: 86 mm, depth: < 35 mm (approx.)
Power: 12 / 24 V dc (Usually supplied from battery backed system PSU)
