DISABLED TOILET ALARMS

Folknoil's vandal resistant BS8300 compliant disabled toilet alarm system provides cost-effective solutions built from standard and bespoke units. Our toilet alarms can be combined with disabled refuge EVC, fire telephone and other systems. Ideal for shops, offices, hotels and other public spaces.

DT7520.20L CALL POINT LED STAINLESS

Folknoil offer a range of pull cords, call points and illuminated alarm strips to activate disabled toilet alarms. Combinations of these devices may be linked into a single toilet alarm to provide a variety of alarm activation points.

The DT7520.20L Call Point LED Stainless provides a vandal resistant alarm activation button with alarm activation reassurance LED.

To reduce the risk of accidental activation the unit is has an activation delay. The call button must be pressed and held for a minimum of 0.25 seconds before the alarm is triggered.

On alarm activation the LED is illuminated to provide the user with reassurance that the alarm has been triggered and help is on its way.

The unit is designed for public spaces with a vandal resistant stainless steel faceplate, with anti-tamper fixings and an internal anti-tamper switch.

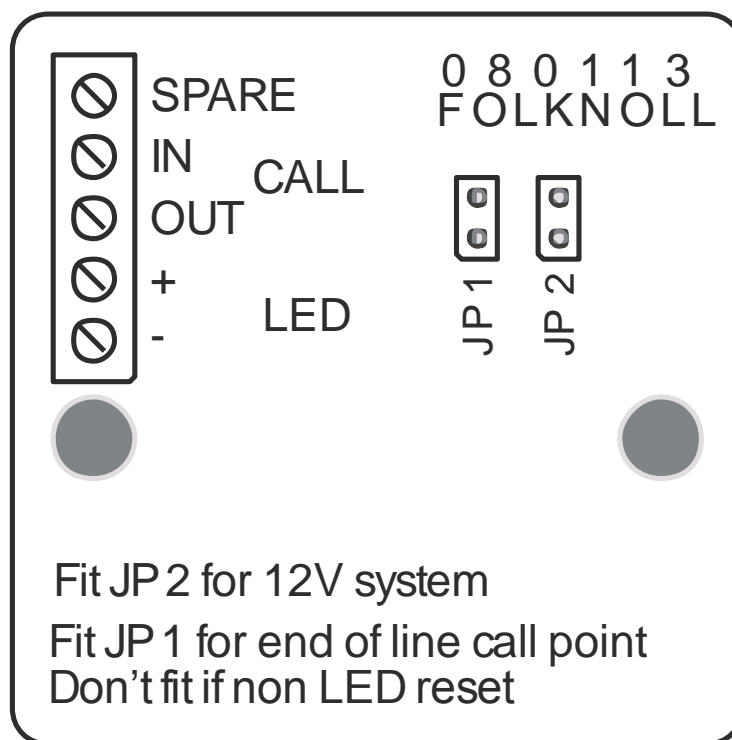

The standard faceplate is made from brush finished stainless steel annotated in red with the word **CALL**. Other finishes and alternative annotation are available on request.

The unit can be mounted in a flush or surface mount, single gang, 35 mm back box
