

DT7540.00E ALARM RESET ENHANCED

- Vandal resistant reset button and alarm controller
- BS8300:2009 COMPLIANT
- Two minute accept / acknowledge function
- Fault indications
- Heartbeat manufacturing option
- Illuminated reset button
- Internal buzzer
- Input for pull cords
- Outputs for external / over-door beacons and sounders
- Input for remote and local accept or acknowledge
- Input for additional reset buttons
- Button, buzzer, beacon, sounder 'flash' on alarm
- Buzzer, sounder muted, button, beacon constant on accept
- Stainless steel faceplate
- Anti-tamper fixings available
- Mounts in flush or surface single gang back box
- Compatible with Folknoll remote monitoring systems

DISABLED TOILET ALARMS

Our vandal resistant BS8300:2009 compliant disabled toilet alarm system provides cost effective solutions built from standard and bespoke units. Our toilet alarms can be combined with disabled refuge EVC, fire telephone and other systems. Ideal for shops, offices, hotels and other public spaces.

DT7540.00E ALARM RESET ENHANCED

Our reset unit / alarm controller monitors pull cords and other alarm activators, activating beacon sounders if an alarm is triggered. The integral reset button is used to reset the alarm after the incident has been resolved. The reset unit is usually installed inside a toilet to ensure alarm responders visit the location in response to an alarm.

The DT7540.00E Alarm Reset Enhanced also offers an illuminated reset button, an accept function and an internal buzzer. The faceplate is made from brush finished stainless steel and annotated in black with the word **RESET**. Other finishes and alternative annotation is available on request. This unit can be mounted in a 35 mm flush or surface single gang back box (not supplied).

ILLUMINATED RESET BUTTON

The reset button resets or cancels the alarm. To reduce the risk of accidental alarm reset the button must be held for a minimum of 0.25 seconds. The button illumination mimics the action of the over-door beacon giving the user a positive visual alarm activation indication inside the toilet.

INTERNAL BUZZER

The buzzer mimics the action of the over-door sounder giving the user a positive audible alarm activation indication inside the toilet.

ACCEPT FUNCTION

The accept function allows local or remote devices to 'accept' and temporarily mute alarms, giving reassurance that help is on its way and making verbal communication easier. If the alarm has not been reset within two minutes the alarm is reactivated.

ALARM ACTIVATED INDICATIONS

On alarm activation the internal buzzer and the external sounders sound intermittently, the reset button illumination, pull cord LEDs and external beacons flash.

ALARM ACCEPTED INDICATIONS

If an alarm is accepted the internal buzzer and external sounders are muted, the reset button, pull cord LEDs and external beacons are continuously illuminated.

FAULT INDICATIONS

On fault, all buttons, beacons and pull cords LEDs flash rapidly.

OPTIONAL HEARTBEAT INDICATION

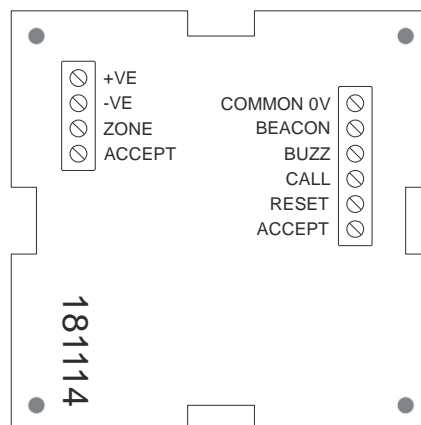

If the heartbeat option is ordered, the reset button and any attached call point buttons, pull cord LEDs or beacons are periodically flashed. Reassuring users and staff that the alarm system is still powered and operating correctly.

This is a manufacturing option, specify DT7540.00EH when ordering.

SPECIFICATIONS

- Faceplate: Brushed finish stainless steel, with black annotation
- Mounting: 35 mm single gang back box (not supplied)
- Dimensions: Width: 86 mm, height: 86 mm, depth: < 35 mm (approx.)
- Power: 12 / 24 Vdc (Usually supplied from battery backed system PSU)

CONNECTIONS

ABOUT US

We are a UK based company with over 30 years of design and manufacturing experience. All of our products and systems are designed for toughness, reliability, easy installation, simple configuration, straightforward operation and low maintenance. As original manufacturer all of our product ranges can be customised to suit your application. Including custom engraved panels, additional features and special systems.

Please contact us for further information about our wide range of products and services and find out how we can provide a solution for you.
