- BS8300:2009 COMPLIANT
- Illuminated acknowledge button
- Stainless steel faceplate
- Anti-tamper fixings available
- Mounts in flush or surface single gang back box
- Output for Folknoll remote monitoring systems

### DISABLED TOILET ALARMS

Our vandal resistant BS8300:2009 compliant disabled toilet alarm system provides cost effective solutions built from standard and bespoke units. Our toilet alarms can be combined with disabled refuge EVC, fire telephone and other systems. Ideal for shops, offices, hotels and other public spaces.

### ACKNOWLEDGE POINTS

Our acknowledge points accept alarms and temporarily mute alarm sounders; reassuring users and facilitating voice communication. Acknowledge points are usually installed outside of a toilet; for use by staff responding to an alarm.

To reduce the risk of an accidental 'alarm accept', the acknowledge button must be held for a minimum of 0.25 seconds. Alarms can only be accepted for a preconfigured 'accept period'. If the alarm is not reset within the 'accept period' the alarm beacons and sounders will be re-activated

The acknowledge point button illumination mimics the action of the over-door beacon. Usually, off when quiescent, flashed on alarm and continuous during the accept period.

### DT7520.21F ACKNOWLEDGE POINT

The DT7520.21F Acknowledge Point offers a vandal resistant acknowledge point with an illuminated button. The faceplate is made from brush finished stainless steel and annotated in black with the word **ACKNOWLEDGE**. Other finishes and alternative annotation is available on request. This unit can be mounted in a 35 mm flush or surface single gang back box (not supplied).

### SPECIFICATIONS

Faceplate:	Brush finished stainless steel, with black annotation
Mounting:	35 mm single gang back box (not supplied)
Dimensions:	Width: 86 mm, height: 86 mm, depth: < 35 mm (approx.)
Power:	12 / 24 V dc (Usually supplied from battery backed system PSU)

## **ABOUT US**

We are a UK based company with over 30 years of design and manufacturing experience. All of our products and systems are designed for toughness, reliability, easy installation, simple configuration, straightforward operation and low maintenance. As original manufacturer all of our product ranges can be customised to suit your application. Including custom engraved panels, additional features and special systems.

Please contact us for further information about our wide range of products and services and find out how we can provide a solution for you.
