

### FEATURES

- Fully enclosed surface mount unit
- Supplies battery backed power for disabled toilets system
- May not be required if compact disabled refuge EVC master station is used

### DESCRIPTION

Battery backed system power supply units provides power for complete Disabled Toilets Alarm systems.

These units are usually installed near one of the system controllers.

These units are battery backed for continued operation in the event of a mains failure.

Usually only one PSU is required per disabled toilets system.

Battery backed system power supplies are supplied in fully enclosed surface mount enclosures
