

AFFRAY CALL POINT

- Alarm activator
- Large red mushroom alarm button
- Red painted stainless steel fascia
- Anti-tamper fixings
- Anti tamper switch
- Screw terminal connections for easy installation
- Surface mount complete with red back box.

DESCRIPTION

The Folknoll general alarm series is used to implement a wide range of MoJ alarm systems including general/officer/staff alarms and affray alarms.

The standard affray call point is usually mounted on a surface in a strategic location and used to call for assistance or etc.

Call points can be daisy chained to provide 'zoned' alarms or used individually so that alarm system can identify the precise source of the alarm.

Screw terminals are provided for all connections common, normal closed, normally open. Additional terminals available for daisy chaining signals or power. Intended for deal for use with powered activators such as IR detectors.

The unit incorporates an anti-tamper switch that activates when the unit is opened.

The affray call point is supplied in a vandal resistant red painted surface mount enclosure with anti-tamper fixings.

Other colours available on request.
