Suitable for use in public areas

EMERGENCY ASSISTANCE ALARMS

Folknoll emergency assistance alarm systems offer cost-effective, vandal resistant, **BS 8300-2** and **DOCUMENT M** compatible solutions built from standard and bespoke units. Our alarms can be combined with disabled refuge EVCS and other systems. Ideal for **SHOPS, OFFICES, HOTELS** and other **PUBLIC SPACES**.

FOLKNOLL BEACON SOUNDERS

Beacons, sounders and combined beacon sounders are usually mounted over the entrance of an alarm zone to attract attention and indicate the source of an alarm. Depending on the layout of the site, additional beacons/sounders and/or remote indicators may be required to help ensure staff are aware of alarm activations.

DT7520.40: BEACON SOUNDER STAINLESS

The DT7520.40 is our standard emergency assistance alarm overdoor beacon sounder.

This unit is fitted with a large bright LED beacon and an internal sounder which illuminate and sound to indicate alarm activation.

The LED beacon is dome shaped and can be seen from the side — ideal for use in corridors.

The beacon and sounder can be controlled separately to indicate the alarm acknowledge state.

Multiple units can be daisy-chained together to offer alarm indication in multiple locations.

FACEPLATE

The faceplate is made from brushed finish stainless steel and silk screened in black with the words **ASSISTANCE REQUIRED**. Other finishes and alternative annotation are available on request.

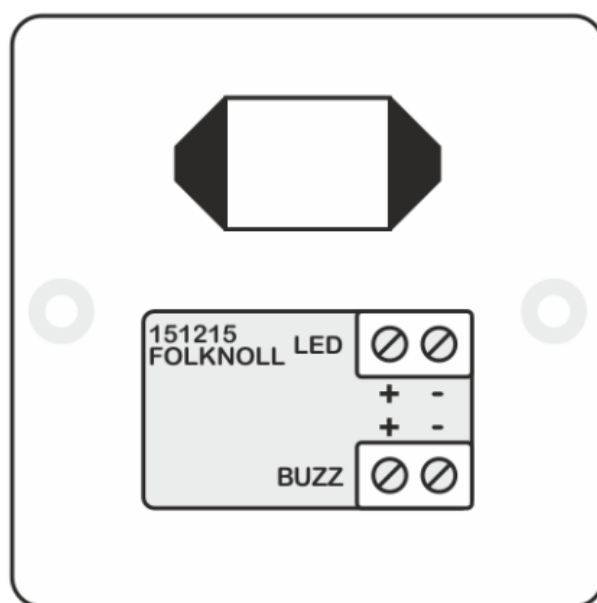

MOUNTING

The unit is designed for mounting in a standard >35mm, single gang, UK back box. Anti-tamper fixings are available on request.
