

GA012 FLUSH MOUNTING GREEN CALL POINT

- Green Vandal resistant alarm call point
- NOMS compliant
- Large call button
- Anti-tamper switch
- Screw terminals for easy installation
- Mild steel faceplate
- Anti-tamper fixings available
- Mounts in flush single gang back box
- Compatible with Folknoll general alarm and other security systems

GENERAL ALARM

Our NOMS compliant general alarm equipment can be used to construct a wide range of custodial alarm systems including general, officer, staff and affray alarm systems.

GENERAL ALARM CALL POINTS

General alarm call points are usually mounted in strategic locations and used by staff and others to activate alarms, call for assistance, etc.

Call points can be daisy chained to provide 'zoned' alarms.

For ease of installation screw terminals are provided for all system connections.

Spare terminals are available for daisy chaining signals or power. Ideal for incorporating powered activators, e.g. as IR detectors, into a general alarm system.

GA012 FLUSH MOUNTING GREEN CALL POINT

The GA012 Flush Mounting Green Call Point offers a green flush mount call point with an internal anti-tamper switch.

The faceplate is made from vandal resistant green painted mild steel. Other finishes are available on request.

This unit can be mounted in a 35mm flush single gang back box (not supplied).

SPECIFICATIONS

Faceplate: Mild steel, painted finish, green
 Mounting: 35mm single gang back box (not supplied)
 Dimensions: Width: 86mm, height: 86mm, depth: < 35mm (approx.)

CONNECTIONS

TERMINAL	SIGNAL
