Dear Ben,

Many thanks for providing Manchester United with a suitable solution for the new disabled changing facility which has been recently installed.

The brief was to install a suitable disabled alarm system which would also incorporate an auto-dialler to communicate with the facility and have a direct link with the control room.

After contacting Folknoll they were extremely helpful with providing the correct standard equipment for the facility and also the bespoke analogue auto-dialler. Their experienced technical support also assisted with relevant wiring diagrams and pre-set the auto-dialler so it was ready to use.

I would recommend this system to anyone considering a similar installation and we will certainly be using Folknoll in the future.

Regards,

Mark Gyves
Electrical Services Manager
