CAN BE USED TO CONFIGURE PRESTIGE SYSTEMS

FOR PRESTIGE SYSTEMS

FOLKNOLL PRESTIGE WALDEN CALL SYSTEMS

Our flexible Prestige warden call / nurse call range combines panic alarms, assistance alarms, door exit alarms, external alarms, intercom, door entry control with local and remote monitoring. Providing peace of mind to residents of care homes, warden controlled homes, nursing homes and other similar establishments.

PS7501 PRESTIGE STANDARD HAND UNIT

The PS7501 Prestige standard hand unit receives calls from speech units, door entry panels etc. and alerts users to alarms from panic buttons, pull cords, call points, etc. The unit can also be configured to alert users to alarms from external systems e.g. smoke detectors, exit door alarms etc.

In the event of a call or alarm the hand unit generates an alarm tone and displays a message identifying the source of the alarm.

If the call is from a door entry panel the hand unit acts as a door entry master station allowing the user to operate the door releases remotely.

The hand unit can also be used to configure Prestige systems during installation and maintenance.
