CAN BE LOOPED TOGETHER  
TO PROVIDE MULTIPLE ALARM CALL POINTS

SCREW TERMINAL CONNECTION FOR EASY INSTALLATION

## FOR PRESTIGE SYSTEMS

### FOLKNOLL PRESTIGE WALDEN CALL SYSTEMS

Our flexible Prestige warden call / nurse call range combines panic alarms, assistance alarms, door exit alarms, external alarms, intercom, door entry control with local and remote monitoring.

Providing peace of mind to residents of care homes, warden controlled homes, nursing homes and other similar establishments.

### PS7604 PRESTIGE CEILING PULL CORD

The PS7604 Prestige Ceiling Pull Cord provides the warden call system with additional alarm call points, making it easier for residents and staff to summon assistance.

When the cord is pulled, the Wardens Hand Units generate alarm tones and display messages to alert staff. Depending on the site additional sounders and beacons may also be activated.

The pull cord must be held for at least 0.25 seconds to reduce the risk of accidental alarm activation.

The base of the unit is fitted with an LED automatically illuminated on alarm to provide user reassurance.

Pull switches can be looped together to provide multiple call points e.g. for residential units with kitchens, ensuite bathrooms, toilets etc.

Units are supplied with a 2200 mm cord and two pull handles to allow high and low level alarm activation.

## PART NUMBERS

PS7604 Prestige pull cord, ceiling

## SPECIFICATIONS

Enclosure: Plastic  
Dimensions: Diameter: 78 mm (approx.)
