VANDAL RESISTANT DESIGN

VIDECOM INTERCOM SYSTEMS

The VC-7000 Videcom series is a range of easy to install, easy to configure and easy to operate vandal resistant communications equipment, designed to enable you and your clients to install reliable, vandal-resistant audio and video intercom systems.

VIDECOM OUTSTATIONS

Videcom outstations are installed in strategic areas to enable users to contact operators for assistance.

VC 7000-101: VANDAL-RESISTANT AUDIO OUTSTATION

The VC 7000-101 is our standard stainless, audio, videcom outstation. This unit is fitted with a large call button with integral call progress LED, an internal microphone and speaker. The audio output is adjustable up to 80dB for locations with high background noise.

The standard model is annotated in black with the word “**PRESS ONCE TO CALL**”, alternative annotation is available by request.

CONSTRUCTION

This unit is made from high-quality stainless steel with vandal resistant fittings and mesh or grill protection for openings. Anti-tamper fixings are available to deter unauthorised access. Custom Folknoll mild steel back boxes are available for surface or flush mounting. Other options available by request.
